

Just Ask Mia

The Personal Family-Support Chatbot
That's More Like a Trusted Friend

Mia makes it easy to find quality resources.

It's quick, simple and secure. Whatever Mia helps with, she keeps to herself. With anonymity, Mia assesses what an individual or family might need in terms of food, clothing, cell phone assistance and any available services in their area. Then, Mia shares only high-quality providers who offer specific services and resources matching their request(s).

Mia helps decrease the number of families in crisis by:

- Increasing connections to needed family resources
- Freeing up time for connections with live-person case management at existing resources
- Identifying additional needs a family might have and proactively connecting them to resources

Interested in adding Mia to your website?

Scan the QR code to request to host the Chatbot and one of our team members will follow up regarding next steps.

To text with Mia, just text 'Family' or 'Familia' to (877) 558-2261

Together we can help more people.
